Academic Details

o **Bachelor of Technology (B.Tech) Mechanical Engineering**
Yashoda Technical Campus, Satara;
CGPA: 7.15
2018 - 2023

o **Higher Secondary Education (HSC)**
Mudhoji High School, Phaltan.
Percentage: 60.30%
2017 – 2018

o **Secondary Education (SSC)**
Mudhoji High School, Phaltan.
Percentage: 66.80%
2015 - 2016

Soft Skills

Analytical | Leader | Time management | Emotional Intelligence | Empathy | Motivated

Technical Skills

o **Programming Languages:**
Java, JavaScript, SQL, Beginner in python
o **Frameworks:**
Spring, Spring boot, Hibernate, Apache struts, JPA, Collection, JDBC, Maven, Thymleaf, ReactJs, SQL, MySQL, Oracle, Database Design, Backup and Restore.
o **Other**
HTML - 5, CSS - 3, Bootstrap.

Core Competencies

o Team Work
o Software Development Life Cycle
o Restful API
o Client Focus
o Managing Time
o Web Services
o Microservice Design

My Certifications

o Introduction To Programming using java- Microsoft.
o Front end web development – Great learning academy
o Full stack java development – Cyber success.

Profile Summary

o A full stack developer with high **problem-solving skills** and develops **complex projects**.
o To work with an **organization** where can learn new skills and increase my abilities for the **organizational goals** as well as my self.
o **Developed a highly scalable Timetable system** which is used regularly in my class.

Projects

Wireless Notice Board	**Dec 2022 – Jan 2023**
Tools: Java, Arduino Programming	

A Wireless Notice Board is a digital solution designed to streamline communication between college teachers and students. It provides a convenient way for teachers to post daily notices, announcements, and important information, ensuring that students stay updated with the latest news and events.
And I am happy because this is used in my college till now.

Twitter Shaming Detection Using Machine Learning Framework	**Jan 2023 – March 2023**

Timetable Creation and Attendance Monitoring	**Jan 2024 – March 2024**
Tools : Java, Jsp, CSS, JavaScript	

Responsibilities : Handle business logic for creating, updating, and managing timetables.
Use java to interact with the Database for storing and retrieving timetable data.
Create dynamic web page using jsp where class employee can view, create, and update timetables.
Use relational database MySql to store timetable and attendance data. Java's JDBC can be used for database interaction.

Fully Dynamic Booking System	**Apr 2023 – Jun 2023**
Tools : Java, HTML, CSS, JavaScript	

I developed a Fully Dynamic Booking System with Java, Servlets, JSP, JDBC, CSS, HTML, and MySQL. It supports train, bus, and flight bookings, providing a seamless and interactive platform for users to make reservations with real-time updates and dynamic features.

Alive Films Website	**May 2023 – July 2024**
Tools : HTML, CSS, JavaScript, React	

I developed this website for my client. The client used it to showcase their work. This is a static website created using the React framework.

Static Websites	**Jan 2022 – Dec 2023**
Tools : HTML, CSS, JavaScript, React	

I created some static websites for my practice are mentioned below :
1) Carwale Clone, 2) BroCode Website, 3) Educational Website, 4) Shopping Website
5) Brotomotive Clone, 6) Spotify Clone, 7) Portfolio Website, 8) Gym Website
9) Static & Dynamic Login Forms
Those all websites present in my GitHub profile.
